

Ten Flashing Fireflies

Materials: copy of *Ten Flashing Fireflies* by Philemon Sturges

1. After listening to the story solve the following problem:

How many different ways could 10 fireflies be arranged with some in the jar and some in the night sky?

2. Count out 10 fireflies. Place some fireflies inside the jar. Place some fireflies outside the jar.
3. Use pictures, numbers or words to show all the different ways 10 fireflies could be arranged.

Cut out fireflies.
